

The Blackout hop-up kit can be used on the front or rear suspension. The new aluminum suspension kit is direct fit, just remove the original plastic parts and replace them with the new aluminum parts. Be sure to align the new aluminum parts exactly as the original parts were. Use the hardware included with this kit.

Reuse original bearings, ball studs, and drive shaft components.

The darkened components in the exploded view will be replaced with the parts in this hop-up kit.
